Register a free business account Hacker handbooks, built on innovation and on a keen understanding of the challenges facing student writers, are the most widely adopted in America. Martin's, include The Bedford Handbook, Seventh Edition 2006; A Writer's Reference, Sixth Edition 2007; and A Pocket Style Manual, Fifth Edition 2008. ABOUT THE CONTRIBUTING AUTHORS NANCY SOMMERS, who has taught composition and directed composition programs for thirty years, now teaches writing in the Graduate School of Education at Harvard University. A twotime Braddock Award winner, Sommers is wellknown for her research and publications on student writing. Her recent work involves a longitudinal study of undergraduate writing. A recipient of numerous teaching awards both at Harvard and at the University of Virginia, he also leads professional development seminars on writing instruction for public high school teachers. JANE ROSENZWEIG teaches composition and directs the writing center at Harvard University. She has also taught writing at Yale University and the University of Iowa. MARCY CARBAJAL VAN HORN, Assistant Professor of English and ESL at Santa Fe Community College FL, teaches composition to native and nonnative speakers of English and teaches the Advanced ESL Writing course. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Conewago 4.0 out of 5 stars Ive used this guide for about a month now, including writing one research paper for grad class. Our professor, whose BS is in English and is a real stickler for grammar, highly recommended it. In fact, I like it well enough that my wife wants one, and Im getting another to keep at work.

<http://gemabazan.com/images/bryant-repair-manual.pdf>

It is well organized, making it very easy to use, and the way the information is presented makes it easy to understand I dont think I ever spent more than about 5 seconds finding the right information. The true spiral binding not a plastic comb makes it convenient to flip to the right page, and keeps it compact when I have piles of books, papers, and notebooks laying around. I would have given it 5 stars, but Im concerned about how long it will last. The covers and pages seem

lightweight, making the book flimsy. Time will tell. I also don't expect to use this as my only APA reference. Again, time will tell. One other thing, from the picture you can probably see that it's not really a pocket guide, it won't fit in any pocket that I own, but that's true of most books that publishers call pocket guides. That being said, I've been singing its praises to my fellow students. It was recommended by my professor. Awesome resource! Simple to use and so many writing styles at your fingertips. Mine went missing and I had to order another one just to have on hand. I know they have later additions out now, but I love this addition, it's still good for the needs for any student, high school or college. Professors sometimes take for granted that students know these things, or know where to find this information. Unfortunately, that's not always the case, and I have recommended and lent this book to fellow students to help them with the finer details of writing a paper. It's small, lightweight, easy to use, and relatively inexpensive unlike most of my other textbooks. I believe I will be using this book for years to come, and hopefully, it will help me keep my 4.0! I highly recommend this book. Upon researching, the 6th edition also leaves out this all important information as does citation machine. As of Feb 2015, my professor required this text for his course but the 6th edition has been available for some time. Do not buy this. Get the 6th edition for the latest information.

I needed them for my English 101 class I'm taking. The books arrived very fast, and in perfect condition. The books are so much cheaper here on Amazon than at my local bookstore, even when you order the brand new version. I can't say I love the book, but I needed it for school and I was very happy with the whole process. Sorry, we failed to record your vote. Please try again. Its concise and straightforward content is flexible enough to suit the needs of writers in the humanities, social sciences, sciences, health professions, business courses, fine arts, teacher training courses, and beyond.
